

ENVIRONMENTAL POLICY

IPC Maintenance (IPC) is committed to the protection and preservation of the environment through the implementation and utilisation of responsible operations and environmental management practices. Our activities are conducted in a manner which minimises environmental impact, conserves resources and encourages environmental sustainability.

We strive to meet the requirements and expectations of our customers and conduct our activities in accordance with the guidelines of ISO 14001. IPC recognises the importance of implementing effective environmental management to achieve the following targets and objectives:

- Prevention of pollution and damage to the environment;
- Complying with applicable environmental legislation, regulations and guidelines; and
- Promoting a culture of responsible environmental management.

Our commitment to environmental management is demonstrated by:

- Identifying and managing environmental risks within our operations and applying best practice principles to the prevention of pollution;
- Communicating our environmental policy to all employees, contractors and customers to ensure awareness of this policy throughout the industry we service;
- Making managers and supervisors responsible for compliance to environmental regulations, policies, procedures and work practices.

This policy is intended to provide a framework to attain the goal of: zero environmental incidents.

David Carr
Managing Director
